

Standard Pallet Sizes In Australia

In 1993 the Australian Standard for pallets was prepared by a committee representing different industries on behalf of the Council of Standards Australia.

Currently, there is no uniform global standard-sized pallet and each country's distribution chain has historically evolved in its own way.

Below are typical dimensions of standard pallets across the world that are approved by the International Organization for Standardization (ISO).

This data is extracted from the ISO Standard 6780:2003 (Flat pallets for intercontinental materials handling, Principal dimensions and tolerances)

Standard Pallet Dimensions across the World

REGIONS COMMONLY USED IN	DIMENSIONS (mm)	DIMENSIONS (inch)
North America and South America	1219 mm x 1016 mm	40.00 x 48.00
Europe including the UK	1200 mm x 800 mm	31.50 x 47.24
European Asia, North America	1067 mm x 1067 mm	42.00 x 42.00
Australia	1165 mm x 1165 mm	45.90 x 45.90
Asia	1100 mm x 1100 mm	43.30 x 43.30
New Zealand, Europe, Asia	1200 mm x 1000 mm	39.37 x 47.24
